

To the Sangerfield Town Board

A Resolution Urging the Use of Remote Meeting Technology

WHEREAS Zoom, Duo and several other remote meeting technology applications are readily available, and

WHEREAS the public became accustomed to using these applications during the global pandemic, and

WHEREAS public observation of governmental decision-making is a necessity of democracy and

WHEREAS the use of remote meeting technologies would allow more residents of Sangerfield to observe and participate in town board meetings when they cannot attend in person and

WHEREAS the town should be able to provide this utility with marginal effort and expenditure,

THEREFORE the Town of Sangerfield Democratic Committee urges the Sangerfield Town Board to explore and adopt a measure instituting the use of remote meeting technology to allow residents to observe and participate in town board meetings and

FURTHERMORE that consideration be given to employing this technology for meetings of other town boards, committees and commissions.

Adopted this 28th day of June, 2022.

Respectfully,

Town of Sangerfield Democratic Committee
